

Dear LICC families,

We have a very special "Grand Slam Day" planned as part of the Ducks game on May 3. Through a partnership with the [Songs of Love Foundation](#), LICC will be singing a personalized song to a child with a chronic illness.

Over the next few weeks, the children will learn a song dedicated to [Camryn Koke](#), a nine year old girl with cystic fibrosis. [Songs of Love](#) is a non profit organization that individually composes songs for chronically ill children. We at LICC are excited to integrate singing with helping others.

[Allied Physicians Group](#), whose doctors care for Camryn, is sponsoring LICC to sing for her at this special event. The song will be recorded at the Ducks game and will be available for purchase on itunes.

Camryn and her family are quite inspirational themselves as they work to fundraise for the fight against cystic fibrosis. Watch [Camryn's video](#).

Finally, in the next few days, we will be announcing an art contest for all LICC children to enter. Children will be asked to submit entries to design the cover of the CD that is being produced for Camryn's song. This design will be up on iTunes where the song will be sold.

We thank our sponsor, [Allied Physicians Group](#) for helping make this event possible.

See you at the game!
